Govt scared, has turned anti-CEC protests against themselves: CJP

NEW DELHI ■ (TSIT): The Cockroach Janta Party (CJP) on Sunday claimed that troops from "Naxal (Maoist)-affected and border areas" have been brought in to enforce curbs in the national capital to restrain protests, as it reiterated its demand for the resignation of Chief Election Commissioner (CEC) Gyanesh Kumar over alleged irregularities in the Special Intensive Revision (SIR) of electoral rolls.

Addressing a press conference hours after being released by a Delhi court following preventive arrest, CJP co-convener Saurav Das said: "The entire city of Delhi has been turned into a cantonment for the last few days."

"Between 30,000 and 40,000 security personnel have been called in. Troops from Naxal-affected areas, Bengal and Kashmir, including BSF personnel from border areas, have been airlifted to Delhi. More than 40,000 personnel have reportedly been deployed, and the city has been placed under heavy restrictions," he claimed.

"This is creating a major problem. If you want to create a negative atmosphere around protesters and a certain movement, you do not just make things difficult for the protesters; you also create problems for ordinary citizens who may not even be participating in the protest. This creates a negative image of the movement, and that is exactly what is happening in Delhi," he stated.

Das added that the closing of metro stations, suspending trains coming to Delhi from other states, and shutting shops are affecting ordinary people.Mentioning that Sunday might have witnessed more footfall at shops, he said: "What purpose does shutting shops serve? The government believes this will create a negative atmosphere against the youth and this movement.

Joseph Vijay on Sunday flagged off the first train of the much-awaited Chennai Metro Rail's Phase 2 network at Porur Bypass Road Metro station, marking a milestone in the city's expanding public transport system. The inauguration took place during PM Modi's first visit to Chennai since the Vijay government assumed office in Tamil Nadu. Musk says Starlink must be affordable in India

NEW DELHI: Tech trillionaire Elon Musk has said Starlink's pricing in India would have to be made affordable, since no one would buy it if it were too expensive, and argued that competition would give consumers more choice. Musk's comments on X, part of a larger post, come as Jio Platforms, the digital arm of Reliance Industries, counts down to what is expected to be India's biggest public offering.

"The reality is that competition would greatly benefit the average citizen in India by giving them more choices, as it always does. Ambani's profits will be lower, but he is not going out of business," Musk said.

Musk added: "And, obviously, if Starlink is too expensive in India, no one will buy it, so SpaceX will need to make pricing affordable." In the same post, Musk renewed his attack on Mukesh Ambani over Starlink's entry into India, accusing the billionaire's supporters of indulging in "absurd hypocrisy and hyperbole" in arguing simultaneously that his satellite internet service cannot compete with "amazing low prices offered by Ambani's de facto monopoly in India", and claiming - in the same breath - that it poses a strong competitive threat.

"On the one hand, they say Starlink couldn't possibly compete with the amazing low prices offered by Ambani's de facto monopoly in India and then, in the same breath, they essentially claim that Starlink would be too strong of a competitor! This is absurd hypocrisy and hyperbole," Musk wrote, claiming that the "ridiculous arguments" by Ambani's online supporters made no sense to him.

Trump declares Russia-Ukraine energy ceasefire

Washington, Oct 11 : US President Donald Trump on Sunday announced an immediate "energy ceasefire" between Russia and Ukraine, saying both sides had agreed to stop attacking each other's energy infrastructure, even as Ukrainian President Volodymyr Zelensky said he had not been informed and Moscow offered no confirmation. "Effective immediately, there is an ENERGY CEASEFIRE in the War between Russia and Ukraine. Both parties have agreed. Do not break it! Thank you for your attention to this matter," Trump wrote on Truth Social.

The White House repeated the announcement on X about 20 minutes later. "Effective Immediately: An Energy Ceasefire in the War between Russia and Ukraine," it posted.

Trump did not say when the truce was agreed, which facilities it covered, how long it would last, or how it would be monitored.

Neither the Kremlin nor the Ukrainian government issued a formal statement confirming the arrangement in the hours after the post.

Zelensky, speaking to Axios shortly after the announcement, said he had not known about it but would accept a truce if Moscow did. "The ceasefire announcement was news for me. But if Russians agree to an energy ceasefire, Ukraine will agree," Zelensky said.

"If President Trump negotiated it with Putin - please tell us when the ceasefire begins - we are ready and we will accept it," he added.

A senior Ukrainian official told the Kyiv Independent that Kyiv had no information about the ceasefire and doubted that Russia had been informed. Earlier on Sunday, Zelensky had offered a reciprocal halt. "Ukraine will be ready to stop striking Russian oil refineries if Russia stops striking our energy infrastructure," he wrote on X, adding that any de-escalation must be mutual and backed by real guarantees.

The announcement came two days after Trump unveiled an agreement with Russian President Vladimir Putin to release Russian diesel into American and global markets, a move criticised by Ukraine, European officials and US lawmakers from both parties.

The Treasury Department's Office of Foreign Assets Control (OFAC) issued General License 135, authorising certain transactions involving Russian-origin diesel until April 2027.

On Saturday, Trump blamed Zelensky for continuing drone attacks on Russian refineries and said Ukraine should "get a new leader who can make a deal". This is not the first such announcement. Last month, Trump said on Truth Social that Russia and Ukraine had agreed not to hit each other's energy targets. Axios reported that neither side confirmed a deal at the time, and both continued attacking energy infrastructure.

Govt bungalow lies locked, raising questions over public asset use

Mahabubabad: A government bungalow adjoining the Revenue Divisional Office in Mahabubabad, once used as the official residence of successive Collectors, remains locked and unused after the Collector shifted to a new residence near the Integrated District Offices Complex (IDOC).The vacant building has raised questions about public asset management, maintenance and the possibility of allotting it to another district officer in need of government accommodation.The premises, which earlier housed RDOs and Sub-Collectors, reportedly show signs of neglect, including accumulated litter, overgrown weeds, rusted fencing and cracks in the walls. An engineering inspection is needed to assess the building's structural safety and repair requirements. Located beside the RDO office, the bungalow could provide convenient accommodation for an eligible officer, subject to its condition and administrative requirements.The district administration needs to clarify which department is responsible for the property's upkeep, whether government furniture and other assets have been inventoried, and whether any proposal has been prepared for its reuse.The issue also warrants an assessment of vacant government quarters and officials' accommodation needs to identify potential savings in public expenditure.An engineering inspection, followed by a time-bound decision on restoration and allotment, could prevent further deterioration. If residential use is unsuitable, the administration should examine other possible government uses for the property.

Power unavailable even at Rs.15 per unit: Ponguleti

Khammam (TSIT): Electricity is not available even for purchase at Rs 15 per unit amid fears of a worsening drinking water and power crisis due to the impact of El Niño, Revenue, Housing and Information and Public Relations Minister Ponguleti Srinivasa Reddy said on Sunday. He appealed to farmers not to take up a second crop in view of the anticipated shortage of water and electricity. He made these remarks during his visit to the Palair constituency in Khammam district, where he laid foundation stones for development works and inaugurated completed projects along with District Collector T.S. Divakara and Police Commissioner Sunil Dutt.

The minister said the people's government was according equal importance to development and welfare. Since coming to power, the government had been striving to ensure that welfare schemes and development programmes benefited the poor. He highlighted schemes such as Indiramma houses, 200 units of free electricity and the distribution of fine rice, stating that the welfare of the poor remained the government's priority.

He urged people not to believe rumours that the government had discontinued the Kalyana Lakshmi scheme introduced by the previous government. He clarified that both Kalyana Lakshmi and Shaadi Mubarak schemes were being continued and that eligible beneficiaries would receive the benefits.

Expressing concern over the impact of water and power shortages on agriculture, the minister said drinking water and electricity problems were being experienced across the country and globally due to the effects of El Niño. Farmers were likely to face difficulties because of the shortage of electricity. He pointed out that power was not available on any platform even though there was a willingness to purchase it at Rs 15 per unit. The minister assured farmers that the government would extend all possible support to protect the first crop already sown. Necessary measures were being taken to address agricultural water and electricity requirements, he said.

Apollo Hospitals hosts Personalised Arthroplasty Summit 2026 in Hyderabad

Hyderabad 11th October 2026: Apollo Hospitals hosted the two-day Personalised Arthroplasty Summit 2026 at The Westin, Hyderabad, on October 10 and 11, bringing together more than 350 orthopaedic surgeons and joint replacement specialists to discuss advances in robotic-assisted surgery and personalised approaches to knee and hip replacement. The national scientific conference and live workshop focused on emerging technologies, precision-based surgical planning, implant selection and advanced techniques aimed at improving outcomes for patients undergoing joint replacement surgery.

Dr. K. J. Reddy, Chief Arthroplasty Surgeon at Apollo Hospitals, Jubilee Hills, and organising chairman of the summit, led the academic initiative. The programme featured live robotic-assisted knee and hip replacement surgeries, hands-on workshops using bone models and case-based panel discussions.The summit provided a platform for orthopaedic specialists to exchange clinical experiences and explore how technological innovations could support surgical planning and patient-specific treatment strategies. International experts, including Dr. Allan Gross from Canada and Dr. Wayne G. Paprosky from the United States, were featured in the conference programme.

Dr Jairam Chandra Pingle, Sr Consultant Orthopaedic Surgeon said Sessions covered advances in orthopaedic technology, total knee replacement, total hip replacement, pain management, implant selection and complex revision surgery. The discussions also highlighted the importance of precision in surgical planning and the restoration of bone stock in patients requiring revision hip procedures.

Personalised arthroplasty involves tailoring surgical planning and treatment to a patient's anatomy, joint condition and functional requirements. Robotic-assisted systems and computer-based planning tools may help surgeons assess alignment and plan implant positioning in selected cases.Joint replacement is generally considered for patients with advanced arthritis or severe joint damage when persistent pain, stiffness and restricted movement do not respond adequately to non-surgical treatments. The choice of procedure depends on the patient's condition, overall health and functional needs.

Telangana official suspended over insulting remarks to a farmer

Hyderabad, Oct 11 : The Telangana government has suspended a local revenue official in Siddipet district for making allegedly derogatory remarks against a farmer who approached him over a land dispute. The government issued orders suspending Gajwek Tehsildar Chittampalli Swamy after a video showing him making the remarks went viral on social media.

Acting on a preliminary inquiry report submitted by the Revenue Divisional Officer (RDO), Siddipet district Collector K. Haimavathi ordered his suspension. Swamy has been directed not to leave his headquarters without prior permission.

"Are you still alive? Have you not consumed pesticides yet?" the tehsildar was seen asking the farmer when the latter approached the official over a land-related issue. The officer's insensitive remarks had evoked public outrage. Following demands from farmers for action against the tehsildar, the district Collector had asked the RDO to conduct an inquiry. After the preliminary report submitted by the RDO, who found the official's behaviour to be inappropriate, the Collector issued the suspension order.

Yesu, a farmer from Maktha Masanpally village in Gajwel mandal, had expressed distress over a land-related issue.

As the farmer was explaining his problem, the tehsildar made the insulting remark. Yesu expressed distress over this and questioned whether he had made the statement intentionally. "Yes, I did. Of course, I did," the official replied.

Meanwhile, another video has surfaced on social media in which Yesu stated that the incident happened 5-6 months ago.

The farmer said he had approached the tehsildar (Mandal Revenue Officer) following a dispute with the relatives with regard to the compensation for the land acquired for the Regional Ring Road (RRR).Yesu said village elders, including the sarpanch and the deputy sarpanch, had accompanied him to the MRO office. The farmer said the land issue was settled after the compensation money was credited to his bank account.

Ponnam challenges BJP chief to meet deleted voters

Prabhakar dared the BJP chief to set a date and venue for the meeting, saying he would bring the affected voters along with their documents.

Hyderabad: Telangana Transport and BC Welfare Minister Ponnam Prabhakar has challenged state BJP president N. Ramchander Rao to meet voters whose names were deleted from the electoral rolls during the controversial Special Intensive Revision (SIR) exercise.

Prabhakar dared Rao to set a date and venue for the meeting, saying he would bring the affected voters along with their documents. He, however, warned against deploying police or arresting those who turned up to meet the BJP leader.

Prabhakar's remarks came in response to Rao's defence of the Election Commission of India (ECI) amid nationwide protests against Chief Election Commissioner Gyanesh Kumar and the BJP-led central government over alleged irregularities in the SIR exercise, including the large-scale deletion of voters.

Rao had dismissed the allegations against the ECI as false, prompting Prabhakar to challenge him to meet the affected voters. Also Read: SIR: Days after mapping, Hyderabad voter says his name was deleted based on objection he never filed

Prabhakar said 13 crore voters had been deleted from electoral rolls nationwide following the SIR exercise. In Telangana, he claimed, 70 lakh voters had been deleted, including 40 lakh in Hyderabad alone. He alleged that SC, ST, BC and minority voters, whom he said were more likely to oppose the BJP, had been disproportionately affected.

Citing his own experience, Prabhakar claimed that his name had nearly been deleted from the electoral roll due to a discrepancy in his father's name. He said poor, elderly and illiterate people, as well as daily-wage workers, were being forced to run from office to office to establish their eligibility to vote, despite possessing Aadhaar cards.

Prabhakar also referred to former Vice-President M. Venkaiah Naidu, who had spoken about the difficulties he faced during the SIR process in an interview with a Telugu news channel.

Prabhakar demanded that the ECI disclose the number of voters deleted, how many of them were ineligible and whether any eligible voters had been removed from the rolls by mistake. The right to vote, he said, was a democratic right guaranteed by the Constitution, not merely a form of identity. He called for errors in the electoral rolls to be corrected without disenfranchising eligible voters.

Prabhakar, along with PCC president Mahesh Kumar Goud, other state ministers, MLAs, MLCs, MPs and DCC presidents, will leave Hyderabad for Delhi this evening to participate in the INDIA bloc's protest against the ECI on October 12.

El Niño triggers power, water crisis in Telangana

Telangana is facing one of its most challenging drought situations in recent years, as deficient monsoon rainfall due to El Niño has left large parts of the state grappling with water scarcity, stressed irrigation systems and rising pressure on electricity supply. Chief Minister A Revanth Reddy has ordered officials to prepare a detailed action plan covering drinking water, irrigation, agriculture and power to manage the crisis over the coming months.

The southwest monsoon, which ended on 30 September, delivered about 615 mm of rainfall against a normal of roughly 740 mm, registering a shortfall of around 17 percent. Although the overall category remained within the normal range according to meteorological classifications, 18 of the state's 33 districts recorded deficient rainfall. Drought-like conditions have been identified in approximately 215 to 235 mandals, with some assessments placing the number of severely affected mandals even higher across 18 districts. These areas span multiple regions and have raised serious concerns over crop losses, reduced rural incomes and the livelihoods of farming communities dependent on timely irrigation.

Falling reservoir levels, mounting demand for power and water Minor irrigation tanks, a critical source of water for agriculture and groundwater recharge, reflect the severity of the situation. Of the more than 21,500 tanks monitored across the state, nearly 17,700 held less than 50 percent of their storage capacity as of early October. Close to 13,000 tanks had either dried up completely or retained less than a quarter of their normal water levels.

Total storage in these tanks had dropped to about 94 tmc ft against a combined capacity of nearly 254 tmc ft. Major and medium reservoirs in the Krishna basin also show sharply reduced live storage compared with the previous year, with several key projects approaching or reaching dead storage levels.

Inflows into both the Krishna and Godavari river systems have remained weak, further limiting water availability for irrigation and drinking purposes.

Groundwater levels have declined by an average of more than 2 metres in many regions, increasing dependence on deeper borewells and adding significantly to electricity demand. Farmers in districts such as Siddipet, Medak and Nalgonda have reported irregular three-phase power supply, often limited to fewer than eight hours a day, accompanied by low voltage that damages pump motors.

In several locations, cultivators have organised protests and sit-ins at substations, demanding a consistent and reliable power supply to protect standing crops that require timely watering. The combination of low surface water levels and unreliable electricity has created a difficult cycle for agricultural operations at a critical stage of the season.Electricity demand has climbed to record highs, peaking near 19,900 MW. The surge is attributed largely to intensified agricultural pumping during the dry spell. While the state has managed to meet overall demand so far, officials have acknowledged that power availability in the open market is limited.

Residents in several urban and rural areas have already reported difficulties in accessing regular drinking water supplies, with some towns and villages relying more heavily on Mission Bhagiratha schemes, additional borewells and alternative sources as surface water dwindles.

Drought response

The Chief Minister has directed departments to ensure careful use of available electricity, explore the temporary postponement of power-intensive activities where possible, and continuously monitor supply arrangements to minimise disruptions for domestic, agricultural and industrial consumers. Senior officers in the Chief Minister's Office have been instructed to monitor the power situation closely on a daily basis.

On the water front, the government has instructed officials to assess the condition of standing crops and take steps to ensure water availability until the harvest is completed. Special emphasis has been placed on preventing further deterioration of the water situation and conserving every available drop.

Plans include launching a public awareness campaign on the impacts of El Niño through television channels, cinema halls and cultural programmes to encourage community participation in conservation efforts.

The state has already adopted a resolution in the Legislative Assembly seeking central recognition of the drought-affected mandals and requesting adequate financial assistance, including a special package of Rs.20,000 crore. Additional measures under consideration include seeking an extension of employment days under the rural job guarantee scheme beyond the standard allocation to support affected households during this difficult period.

A special Cabinet meeting reviewed the overall drought situation, examined relief measures proposed by the Cabinet subcommittee and finalised further interventions. Inputs from political parties, farmers' organisations and subject experts are expected to be considered.

The Chief Minister has described the next eight months as critical for managing the emerging challenges related to drinking water, irrigation and power. Officials have been told to involve the public as partners in implementing the action plan and to prepare contingency measures that anticipate problems rather than respond after they escalate.

Authorities maintain that all possible steps will be taken to protect essential supplies for citizens and farmers. The simultaneous strain on both water and energy systems remains under close watch as the state works to mitigate the effects of the rainfall deficit and prepare for the months

Kavitha seeks separate SC, ST commissions with enforcement powers

Hyderabad (TSIT): Telangana Rakshana Sena chief Kalvakuntla Kavitha has called for the establishment of separate commissions for Scheduled Castes (SCs) and Scheduled Tribes (STs) in Telangana, stressing the need for a constitutional amendment to empower the bodies with enforceable authority to deliver justice to victims.

Speaking at a meeting organised by the SC/ST Employees Association at Bashirbagh Press Club in Hyderabad, Kavitha said the issues and challenges faced by SC and ST communities differed significantly. She argued that separate commissions would enable focused attention on the problems of each community and help ensure timely justice for those facing discrimination and injustice.

Kavitha observed that the existing SC and ST commissions were largely limited to issuing advice and recommendations, with no effective mechanism to ensure their implementation. She said the commissions should be equipped with stronger legal powers so that their decisions could have a meaningful impact on the lives of disadvantaged communities.

Referring to the powers exercised by institutions such as the Competition Commission of India and the Election Commission, she called for granting comparable authority to the SC and ST commissions. According to her, strengthening these institutions would improve accountability and enable them to respond more effectively to complaints and grievances.She also clarified that the identity of the commission chairpersons was less important than ensuring that the institutions possessed the necessary powers to protect the rights of SCs and STs. She stressed that effective enforcement mechanisms were essential to ensure that recommendations did not remain merely on paper.Kavitha promised that if her party came to power in Telangana, it would establish separate commissions for SCs and STs.

Kishan Reddy Accuses Congress Of Double Standards On Democratic Rights

Hyderbad: Union minister for coal and mines G. Kishan Reddy on Sunday accused the Congress of "double standards" on democratic rights, saying the party demanded freedom to protest in Delhi but restricted the BJP in Telangana.

He said Congress leaders were speaking about democracy and Opposition rights in Delhi, while the Telangana government was preventing BJP leaders from holding protests or meeting people. He noted that Delhi Police had allowed Congress demonstrations despite inconvenience to the public, while Rahul Gandhi and Priyanka Gandhi were free to travel and address meetings. "Why should the democratic rights available to Congress leaders in Delhi not be available to BJP leaders in Telangana?" he asked.

Reddy alleged that BJP leaders, including state chief N. Ramchander Rao, were repeatedly placed under house arrest in Telangana. He cited restrictions during protests over constable recruitment, farmers' issues, fee reimbursement, Section 22A, Bhu Bharati and other matters.

He said the BJP was only questioning the state government over pending reimbursements, unemployment and unfulfilled poll promises, which was the Opposition's duty.

Reddy also criticised Congress president Mallikarjun Kharge for calling Indian democracy "choked", saying the party should first explain its actions during the Emergency in 1975 when press freedom was curbed and Opposition leaders jailed.He demanded that the Congress government in Telangana allow the same democratic freedom to Opposition parties that Congress leaders enjoyed in Delhi.

CM Revanth Predicts Congress Victory in Goa in 2027

Hyderabad TSIT BUREAU: Telangana Chief Minister A.Revanth Reddy on Sunday expressed confidence that Congress would win the Goa Assembly elections in 2027, saying the enthusiasm among people reminded him of Telangana before the party's victory in 2023.

Speaking as chief guest at the Congress party's Goy Rakhonn Yatra, he urged voters to support the Hand symbol. He alleged that smaller parties were splitting the anti-BJP vote and said votes cast for them or independent candidates would benefit BJP.

Comparing the political contest to the Ramayana, Revanth Reddy described BJP as "Ravan" and Congress as "Ram". "If you want to defeat Ravan, you have to support Ram," he appealed.

The Chief Minister accused the BJP government in Goa of failing to curb drug trafficking and allowing a property mafia to flourish. He questioned Chief Minister Pramod Sawant over the drug menace, asking why it remained unchecked despite BJP being in power at both the state and Centre.

Referring to Telangana's efforts against narcotics, he said his government had established the EAGLE force to combat drugs. He claimed that investigations by Telangana teams had uncovered supply networks operating from Goa.

Revanth Reddy said he attended the programme on behalf of Rahul Gandhi after Congress president Mallikarjun Kharge asked him to represent the leader, who was required in Delhi. He appealed to Congress workers to support Gandhi's campaign against the Modi government.

He also alleged that the Special Intensive Revision of electoral rolls was being misused to remove voters, particularly Dalits, Adivasis and minorities, and demanded the resignation of Chief Election Commissioner Gyanesh Kumar. Congratulating Goa Congress leaders and workers on organising the yatra, Revanth Reddy said sustained public outreach and unity would help the party secure victory. "I am confident Congress will come to power in Goa in 2027," he reiterated.

Congress leader questions Venkaiah Naidu's defence of EC over voter deletions

Hyderabad: Pulipati Rajesh Kumar, chairman of the Telangana Pradesh Congress Committee's Election Commission Coordination Committee, on Sunday questioned former Vice-President M Venkaiah Naidu's defence of the Election Commission over the Special Intensive Revision (SIR) of electoral rolls, raising concerns about the deletion of eligible voters.

In a statement, Rajesh Kumar said it was regrettable that Naidu had described concerns over indiscriminate voter deletions as a misconception, arguing that such remarks could undermine public confidence amid fears that eligible voters might be excluded from electoral rolls.

Referring to reports of around 91 lakh voter deletions in West Bengal, he questioned how many affected voters had appealed and how many had subsequently regained their voting rights.

He also alleged that pre-filled Form-7 applications had been submitted by BJP Booth Level Agents in Musheerabad constituency in Telangana, seeking the deletion of 31 voters, including a Congress BLA and his family members. He questioned whether similar attempts had occurred in other constituencies.

Rajesh Kumar further referred to Venkaiah Naidu's account of receiving an SIR notice seeking his 2002 voter details and subsequently obtaining the records with the help of officials in states where he had worked. He questioned whether ordinary citizens could access similar assistance to retrieve old electoral records.

Telangana tops India in C-sections, rural districts cross 80%

NFHS-6 puts Telangana's caesarean rate at 62.2 per cent, more than double the national average. Rajanna Sircilla and Jagitial cross 80 per cent, while Hyderabad ranks only 21st among the state's 33 districts.

Telangana, with 62.2 per cent of births delivered by C-section, has the highest rate of caesarean-section deliveries among Indian states and Union Territories, according to the National Family Health Survey-6 (NFHS-6) for 2023-24. But the state-level number hides an even sharper divide. The highest rates were not concentrated in the urban districts of Hyderabad, Rangareddy or Medchal Malkajgiri. Rajanna Sircilla recorded a C-section rate of 82.0 per cent, followed by Jagitial at 81.0 per cent. Karimnagar was at 79.9 per cent, Khammam at 78.0 per cent and Peddapalli at 76.1 per cent. The national C-section rate was 27.2 per cent, up from 21.5 per cent in NFHS-5. All 33 districts in Telangana recorded a rate above the national figure.

The share of births delivered by caesarean section in Telangana rose from 60.7 per cent in NFHS-5 to 62.2 per cent in NFHS-6, an increase of 1.5 per cent, with a clear urban-rural gap: 70.1 per cent of urban births were delivered by C-section, compared with 59.5 per cent in rural areas.

The spread is wider

The district figures ranged from 38.5 per cent in Kumuram Bheem Asifabad to 82 per cent in Rajanna Sircilla, a gap of 43.5 percentage points. Nineteen of the 33 districts recorded C-section rates of at least 60 per cent, while 12 recorded rates of 70 per cent or more. At the other end of the table, six districts remained below 50 per cent: Sangareddy at 49.8 per cent, Mulugu at 48.0 per cent, Jogulamba Gadwal at 47.8 per cent, Mahabubnagar at 45.9 per cent, Narayanpet at 39.8 per cent and Kumuram Bheem Asifabad at 38.5 per cent.

Notably, even the lowest district rate was well above the national average. The 12 districts at 70 percent or more were Rajanna Sircilla (82.0 per cent), Jagitial (81.0 per cent), Karimnagar (79.9 per cent), Khammam (78.0 per cent), Peddapalli (76.1 per cent), Nirmal (75.3 per cent), Hanumakonda (74.1 per cent), Nizamabad (71.0 per cent), Jayashankar Bhupalapally (70.4 per cent), Mancherial (70.3 per cent), Jangoan (70.2 per cent) and Mahabubabad (70.1 per cent).

Hyderabad is nowhere near the top

Hyderabad's 58 per cent C-section rate was lower than the state average of 62.2 per cent, placing it 21st among the 33 districts. Its neighbouring districts showed very different numbers. Medchal Malkajgiri recorded 68.2 per cent, placing it 13th, while Ranga Reddy recorded 50.2 per cent, placing it 27th. The state-level urban-rural split was notable. C-sections accounted for 70.1 per cent of births in urban Telangana, compared with 59.5 per cent in rural Telangana. The district fact sheets, however, did not provide an urban-rural split for individual districts. It meant that the very high district figures outside Hyderabad should not automatically be described as "rural" rates. They were district-level figures, covering all surveyed births in those districts.

Rajanna Sircilla crosses 80%

Rajanna Sircilla recorded the highest district rate at 82.0 per cent, up from 77.2 per cent in NFHS-5. Karimnagar remained close to the 80 per cent mark at 79.9 per cent, although its rate fell from 82.4 per cent in NFHS-5. Khammam rose from 69.2 per cent to 78.0 per cent, while Peddapalli increased from 71.6 per cent to 76.1 per cent. Nirmal declined slightly to 75.3 per cent from 77.3 per cent, while Hanumakonda rose from 69.3 per cent to 74.1 per cent. Nizamabad also crossed the 70 per cent mark, rising from 66.7 per cent to 71.0 per cent. Mancherial increased from 67.9 per cent to 70.3 per cent.The pattern was therefore not simply one of all high-C-section districts moving upward. Some of the highest-rate districts rose substantially, while others declined.

Some districts moved sharply between surveys

Among the 29 districts for which NFHS-5 comparison figures were available, C-section rates increased in 16 and fell in 13. Jagitial recorded the largest increase, rising 12.9 percentage points from 68.1 per cent to 81.0 per cent. Kumuram Bheem Asifabad saw an 11.3-point increase, from 27.2 per cent to 38.5 per cent, while Adilabad rose 10.3 points, from 40.7 per cent to 51.0 per cent.

Khammam rose 8.8 points, Wanaparthy 7.8 points, and Kamareddy 7.3 points.At the other end, Suryapet recorded the sharpest decline, falling 10.7 points from 77.0 per cent to 66.3 per cent. Jangoan fell 8.9 points, from 79.1 per cent to 70.2 per cent, while Ranga Reddy declined 7.6 points, from 57.8 per cent to 50.2 per cent. Siddipet fell from 69.0 per cent to 63.4 per cent, and Nalgonda from 65.7 per cent to 60.3 per cent. Four districts have no NFHS-5 comparison figure in the district fact sheets: Jayashankar Bhupalapally, Mulugu, Mahabubnagar and Narayanpet.

The private-facility numbers are even higher

C-section rates in private facilities fuelled the state's overall rate. In Telangana, 83.9 per cent of births in private health facilities were delivered by C-section, compared with 48.1 per cent in public facilities. The corresponding national figures were 54.1 per cent and 16.9 per cent, respectively. Seven Telangana districts posted private-facility C-section rates of 90 per cent or more.

Kamareddy is the highest at 95.2 per cent, followed by Karimnagar at 93.6 per cent, Adilabad at 93.4 per cent, Mancherial at 92.4 per cent, Khammam at 90.8 per cent, Rajanna Sircilla at 90.7 per cent and Siddipet at 90.1 per cent. Even in districts with lower overall rates, private-facility figures could be substantially higher. Narayanpet recorded 66.1 per cent, Nagarkurnool 69.8 per cent and Wanaparthy 71.2 per cent. The district-level gap between private and public facilities was particularly striking in some places. Adilabad recorded 93.4 per cent in private facilities but only 29.9 per cent in public facilities, a difference of 63.5 percentage points. Kumuram Bheem Asifabad has a 50.6-point gap, with 75.3 per cent in private facilities against 24.7 per cent in public facilities. Kamareddy has a 48.3-point gap.

Public facilities are also seeing high rates

High C-section rates were not confined to private hospitals. Nine districts recorded C-section rates of 60 per cent or more even among births in public facilities. Rajanna Sircilla led at 74.9 per cent, followed by Jagitial at 72.9 per cent, Peddapalli at 72.6 per cent, Karimnagar at 65.5 per cent, Hanumakonda at 64.1 per cent, Nirmal at 63.0 per cent, Jayashankar Bhupalapally at 62.4 per cent, Jangoan at 61.4 per cent and Nizamabad at 60.7 per cent.

According to police statements, Hyderabad Traffic Police caught 480 motorists driving under the influence of alcohol. They included 411 two-wheeler riders, 30 three-wheeler drivers and 38 four-wheeler and other vehicle drivers.

In Cyberabad, 265 motorists were apprehended, including 237 two-wheeler riders, five three-wheeler drivers, 20 four-wheeler drivers and three heavy vehicle drivers. Police said all the offenders would be produced before the court.

Cyberabad Traffic Police warned that drunken driving resulting in a fatal accident could attract charges under Section 105 of the Bharatiya Nyaya Sanhita, 2023, which provides for imprisonment of up to 10 years and a fine. Meanwhile, Cyberabad courts disposed of 97 drunken driving cases between October 5 and 10. Of these, 91 offenders were fined, while six were sentenced to pay fines and perform social service.

Modi inaugurates Rs 13,000 crore projects in Tamil Nadu, stresses cooperative federalism

Chennai, Oct 11: Prime Minister Narendra Modi on Sunday stressed the need for stronger states to build a stronger nation, highlighting cooperative federalism as he inaugurated development projects worth Rs 13,000 crore and laid the foundation stones for national highway projects in Tamil Nadu.

Addressing a gathering attended by Chief Minister C. Joseph Vijay, Modi said the Centre and the state government were working with a shared commitment to Tamil Nadu's development.

Describing the occasion as historic, he said the projects would create more employment opportunities for the youth.

The programme began with the national anthem, followed by Tamil Thai Vazhthu, the state anthem. The projects covered several sectors, including highways, railways and ports. Modi also laid the foundation stones for national highway projects worth around Rs 3,700 crore.

Extending Navratri greetings to the nation, the Prime Minister referred to his visit to the Jalakandeswarar temple, saying he had received the deity's blessings in Tamil Nadu, which he described as a sacred land associated with Lord Shiva.

Reflecting on his 25 years in public leadership, Modi recalled working with former Tamil Nadu Chief Ministers M. Karunanidhi and J. Jayalalithaa during his tenure as Gujarat Chief Minister.He said that after becoming Prime Minister, he had worked with Jayalalithaa, EdappadiK. Palaniswami and M.K. Stalin. The same determination, he added, guided his engagement with Chief Minister Vijay, reiterating his commitment to serving the people of Tamil Nadu.

Modi described urbanisation as an opportunity and highlighted the expansion of India's Metro network. He said Metro services, which were available in five cities in 2014, now operated in 25 cities, while the network had expanded from 250 km to 1,100 km.

The expansion was making travel easier and improving access to public transport, he said.

Calling for greater support for locally manufactured products, Modi said the Union government was taking measures to encourage Tamil Nadu's manufacturing sector.

Drawing on his experience as a former Chief Minister, he said he understood the expectations of states and was working to address them. Citizens, he added, had developed greater confidence in cooperative federalism.

The Prime Minister emphasised that development required wider infrastructure investment alongside improved roads. Better transport systems would ease everyday life, he said, expressing confidence that the newly launched projects would accelerate Tamil Nadu's progress. A developed Tamil Nadu, Modi added, would contribute to the larger goal of building a developed India.

Bhagat Singh's photo allegedly found in Punjab voter list, Cong seeks probe

Chandigarh, Oct 11: A controversy has erupted in Punjab after a photograph of freedom fighter Shaheed Bhagat Singh allegedly appeared against a voter's entry in the electoral rolls of the Ludhiana East Assembly constituency, prompting Congress leaders to demand a thorough investigation into possible discrepancies.

Former Punjab Congress president Amarinder Singh Raja Warring raised the issue on Sunday, questioning how a photograph of 'Shaheed-e-Azam' Bhagat Singh could reportedly appear against a voter's name in the electoral rolls.

Warring demanded an impartial investigation by the Election Commission and accountability for those responsible. In a post on social media platform X, Warring said, "This was the only thing left to see...!" He claimed that Bhagat Singh's photograph had allegedly been placed against serial number 422 in the electoral roll for polling booth number 38 in Ludhiana East.

The Congress leader compared the alleged discrepancy with similar cases involving photographs in Haryana's electoral rolls and questioned the credibility of the electoral process.

He asked the Election Commission how such errors were occurring in voter lists, who would investigate them and who would be held accountable. He also demanded an impartial inquiry and public disclosure of its findings.

Earlier, Congress leader and former Ludhiana East MLA Sanjay Talwar had raised the issue, demanding a review of electoral rolls at all 235 polling booths in the Assembly constituency.

According to Talwar, apart from the entry at serial number 422 at booth number 38, eight other entries allegedly contained incorrect photographs.

Ludhiana Deputy Commissioner Himanshu Jain said he would obtain details from the concerned Electoral Registration Officer and look into the matter.

Peanuts may help improve cholesterol levels and support heart health, studies suggest

Mumbai, Oct 11: Peanuts, often enjoyed as an affordable everyday snack, may offer several benefits for heart health when consumed regularly as part of a balanced diet. Research suggests that peanuts and peanut butter could help improve blood fat levels and support healthier cholesterol profiles.

A six-month trial known as the ARISTOTLE study, published in Frontiers in Nutrition, examined 63 adults who added peanuts or peanut-based products to their regular diets. Participants consumed skin-roasted peanuts, peanut butter or a refined peanut oil spread to help researchers understand whether the benefits came from the whole nut or primarily from its fats.

The findings indicated that participants who consumed whole peanuts or peanut butter experienced improvements in blood fat markers, particularly triglyceride levels. High triglyceride levels are associated with an increased risk of cardiovascular disease. Researchers suggested that the fibre and polyphenols found in peanuts, including compounds present in their skins, may contribute to these benefits alongside their healthy fats. Another study published in Public Health Nutrition examined men with elevated cholesterol who included a palmful of peanuts in their daily diets for four weeks. The results showed improvements in their total-to-HDL cholesterol ratio and an increase in HDL, commonly known as good cholesterol. The study also reported improvements in markers used to assess coronary heart disease risk.

Long-term observational research has also explored the relationship between nut consumption and cardiovascular health. Data from studies such as the Nurses' Health Study have linked regular consumption of nuts and peanut butter with healthier LDL cholesterol levels and overall blood lipid profiles. However, observational findings show an association and do not establish that peanuts alone caused these outcomes.

Animal studies have also suggested that peanuts may support antioxidant activity and influence cholesterol-related markers. Further research is needed to establish how these findings translate to humans over the long term.

Peanuts provide protein, fibre and unsaturated fats, making them a nutritious and economical addition to a balanced diet. Choosing plain or unsalted peanuts and consuming them in moderate portions can help limit excess sodium and calories. While peanuts may support heart health, they should complement rather than replace other healthy lifestyle measures, including regular physical activity and a balanced diet.
